Right now I can't recommend this game..the main thing I noticed was the graphics it's very blurry it is definetly in need of some in game graphics options...some damage would be good also when you shoot the zombies...the locomotion needs to be a bit faster..I think the game could be good with a few fixes and updates...I won't refund at this time because I would like to see where this game goes... This game is hardcore. It's still in Early Access so you will have to forgive some minor things. Levels are intense and diverse. Well done..
