About This Game

The experimental graphic story Fast Detect takes place in the postapocalyptic Half-Life 2 universe and is shown from the artist's special point of view.

The players usually rush along, forgetful of everything, caught in perilous skirmishes and long fights and sometimes not even noticing how deep the meaning of their surroundings is:

Unique architectural forms, complexes of facilities and diversity of flora, mysterious play of light and chilling, piercing sound.

Take a stop, come to your senses and look around: this may help you and even save your life.
