### About This Game

Player leads team of 5 miners, who mines deeper and deeper for precious gems and other treasures. Excavations are performed on a small, but very rich in raw materials, planet called Morg. It is a perfect place for mining. Varied topography and beautiful scenery encourages for digging. Everyday, miners find lots of rubies, emeralds, gold, diamonds and other treasures which they have to give back to the owner of all mines. One day, The Mine - owner of all mines on the planet, announced competition for the best mining team. Winner will receive the first prize - one of the richest mines on the planet! Additionally, winning team will keep for their own all treasures found during competition. Why dig a whole life for The Mine, if you can dig for yourself and become the richest miner on the planet?!

However, victory will not come so easy. You will have to beat other teams and watch out for many hostile creatures who live in the caves. You will also have to cope with the mines itself, as they are placed in really wild and inaccessible places. Luckily, competition rules allows to use various tools like explosives, mobile teleport or advanced mining tools.

Don't waste your time and send your application to the competition today!

I was wondering how to download these videos from Steam  
Anyone knows?. Great, very challenging platformer with tons of contents!

If you only want to finish the game, it's actually not that difficult.  
But if you want to collect all gems and magic potions, and unlock No Dash achievement for every gem, prepare yourself to meet nightmare-inducing puzzles that will eat away at your heart.

The game introduces a unique gameplay mechanic in every level, and it contains SIXTY THREE levels. That's a huge variety! Many of them will really surprise you and make you go, 'Oooohh...' when you figure it out. The developer is also very dedicated and always respond quickly to issues (such as bugs and balancing).

If you like a platformer that requires both reflex and wit, get this game.. I would have recommended this game as positive, but it got stuck on collecting wooden pieces on the pier. No matter how many times I went back and forth or tried to click to collect the wooden piece, it would not allow me to do so and therefore I could not continue with the game and therefore I cannot recommend this specific play. Having said that - up to this time the game was good and I enjoyed the fact that you had to collect your 'hints'. It was more challenging therefore.. well, what can i really say about this story.. it just freaking me out in the end. The main think that i like about this game is when i was playing it, i forget that this is just a game and i fall in the story like it was all about mine but than it turns out a horrible deadend,

I recommend to play this game for those who like this kind of story based games,. great skins!

game crashes way to many times. if this problem were to be fixed then it would be pretty cool. Excellent, had a lot of fun in this short game. But devs please take this game forward and add more to it. So we can come back and play some more..

There are some really good parts to the three stories in Entre-Deux: Cursed but they only show themselves a little bit. They feel a bit rushed in many parts which is sad because they seem to have a great deal of lore to them. That is almost part of the issue. Much of the lore is not explained or not explained very much. Terms, places, religions, there is a whole world going on in these stories but I haven't the faintest idea what this world is most of the time. The soundtrack is good, a bit repetitive but good none the less. The Entre-Deux story was by far the best of the bunch. Dark Fairies and Cursed Queen was also decent. Witch and Seimoya was easily the weakest. It lacked any real choices to make to affect the story. All 3 suffered from a turn based combat part in which you have no control over which moves are used which makes the entire battle random and out of your hands. This should have been scrapped or the player should be given more choice in the combat like a real turn based strategy game. It was infuriating to have to redo one battle three times due to no fault of my own.

I played Entre-Deux: Cursed on Linux on version 2.0 of the game. It never crashed on me once. I didn't encounter any typos or spelling errors. It supported manual saves and plenty of slots for them. I finished all three stories in a total of 32 minutes. I am not against short games if it provides a good experience but the developer should have taken a bit more time to flesh out the stories more given all of the background details and so they didn't feel so rushed. I paid \$2.29 CAD for it and while that isn't much money it still feels a bit light for content. There are a lot of visual novels out there which offer a better story, more choices and similar cost. I think the developer shows potential with this and hopefully their other games hit the mark better.

My Score: 5.5/10

My System:

AMD Ryzen 5 2600X | 16GB DDR4-3000 CL15 | MSI RX 580 8GB Gaming X | Mesa 18.3.3 | Manjaro Mate | Kernel 4.20.11-1-MANJARO. The difficulty is quite easy for a roguelike genre, but that was the purpose I guess. Very engaging, fast-paced, some bugs here and there, but in overall it feels very decent. The price tag is... high... but up until now, I spent 10h+ in the game and still having fun. Somehow it reminds me about Alienshooter :) Before work I do a quick run and my day can start ^^ This game is nice if you have some spare time and you want to enjoy it. Price is worth it too! Not good a thumbs down brought the game you only get the menu option and its only to exit the game.. really good game, its very interesting and feels very real. it actually requires you to go outside of the game to figure out some puzzles, ex google maps. def worth it at the 2 dollar price.
